## Projects

2020

### Synerggy Discord Bot

- A project management discord bot, built for students
- Designed, programmed, and tested the bot using self-taught programming knowledge
- Used Python, Discord.py, Heroku, and PostgreSQL to create this feature-rich bot, which is now officially listed on top.gg
- The link to the bot and the GitHub repository can be found on our website: [www.synerggy.ml](http://www.synerggy.ml)

2020

### Google Keep/Tasks Clone

- Used Vue.js and Firebase to create an app that merges Google's note-taking app and to-do list app together
- Link: [www.jerry-cheng5.github.io/Keep-Tasks-Clone/](http://www.jerry-cheng5.github.io/Keep-Tasks-Clone/)
